Enhancements to QDB/FPM version dated February 2, 2016

- **Salary & Percentage by Month** – 2 new variations of the report were added based on request from Department of Medicine. You can see these new report options on the very last screen of Salary & Percentage by Month. You can also select “Run as 1 Report” on the FAU screen, for instances when you load a batch for multiple FAUs.

- In the **Closing Reports** section, the term “To Appear” is being replaced by the term “Adjustments”, where applicable. This was requested by EFM to better align with their internal terminology. FPM was also modified so the tab under Income & Expense was renamed from “Closing – to Appear” to “Closing Adjustments”.
